

Yum.

This is like brush-on collagen. Signature Lip Gloss by **Alexis Style** creates a plump, shiny pout and smells like warm sugar cookies. The formula is thick but not too sticky. Available in Kissy (left) and Blitz.

Nice colors, smooth finish.

The **NARS** Fall lineup includes two Duo Eyeshadows: Bohemian Gold (above right) and India Song (not shown). From their spring line, we liked Party Monster eyeshadow, a golden lilac (top center). The summer line features cream-to-powder eyeshadows Pearl Beach and Granada (top left and right), and blushes Gueule de Nuit (left) and Sertao (above). Everything is velvety smooth and blends well. Sertao looks nice on eyes, too.

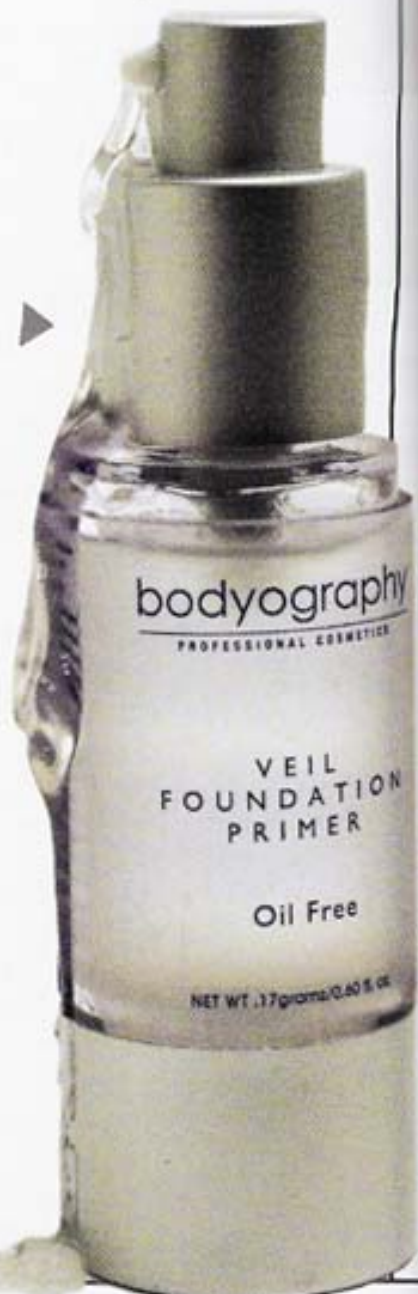

A delicate, smoky look.

Cream to Powder Eyeliner by **Jane Iredale** is formulated with micronized minerals to benefit the skin. Stipple it close to the lash line with an eyeliner or eyebrow brush, then either leave it alone or smudge it out. Four pots available, with three colors in each. Shown here in Black Plus.

All-around good product.

Veil Foundation Primer by **Bodyography** is an oil-free primer that creates a long-lasting matte base to extend the wear of wet or dry foundation. Its antioxidant, silicone-based formula fills in fine lines and wrinkles and improves skin's appearance over time. Available in six shades, but you'll use Clear the most.

Pretty and moisturizing.

Glamour Lip and Lip Care are two new products from German make-up company **Kryolan**. Both products feel great and have medium pigmentation. Lip Care is an extra-moisturizing lipstick with a semi-matte finish. Moisturizing with a glossy shine, Glamour Lip comes in lots of shades, including Warm Rose, Sheer Shine (shown here), Pink Bronze, Pearl Peach, Golden Glaze, and Natural.
